PREFACE

This edition of the Florida Library Directory contains statistical data for FY 1987-88. It includes address listings as supplied by public, academic, institution, and special libraries, and by district school media centers. A name index is included in the back. The computerization of the statistical data and address listings for the production of this year's Directory was done by E. Walter Terrie of the Florida State University Center for the Study of Population Studies, who was assisted by Ed Schafer.

Statistical information was compiled from the annual reports submitted by cooperating public and institution libraries. The state of Florida participates in the Federal/State Cooperative Public Library Data System sponsored by the National Center for Education Statistics and builds on earlier projects sponsored by the United States Office of Education Research and Improvement and the American Library Association's Office of Research. The survey reflects participation in this project.

In using the data, it should be noted that population figures are from the Florida Estimates of Population, University of Florida, as of February 1988, and refer to permanent resident population only. Total population served by public libraries as reported in statistical tables 1,6, and 7 adds to more than the total population of Florida. This is because some municipal libraries and county libraries serve the same population group.

Appreciation is expressed to all of the State Library staff who helped with the compilation of the Directory and especially to Kathleen Mayo, Betty Ann Scott, Loretta Flowers, Charlie Parker, Glenn Tripplett, Helen Moeller, Teresa Lee, Dennis Mathis and Sharon Sewell. Also to Sandra Ulm of the Florida Department of Education who edited the school media center section.

A special note of appreciation is due to the librarians of Florida whose cooperation makes this publication possible.

STATISTICAL ANALYSIS FOR PUBLIC LIBRARIES
1987-1988

Data is compiled from annual survey forms distributed to public libraries in December 1988. Except in cases of obvious inconsistencies where changes were made in consultation with the libraries concerned, the information is published as submitted.

The survey requests information which is not reported in the Tables. This information is also compiled and kept on file at the State Library. Librarians may request information from these files at any time during the year.

Florida public libraries circulated 46,442,126 items to 4,309,523 registered borrowers through 1,028 service outlets.

Florida public libraries have 876 librarians who have earned a master's degree in library science. Additional staff total 3,007 and there are 516 regularly scheduled volunteers. All numbers for staff are expressed in full-time equivalents.

The libraries offered 17,548,006 books plus 4,999,125 volumes of other types of materials to 12,870,291 residents, or 1.75 volumes per capita. Because some residents are served by more than one library, the number of residents served exceeds the population of Florida. This does not mean that every resident of Florida receives free library service. (See Status of Library Development 1989.) Circulation per capita was 3.61. The figures for FY 1987 were 1.75 volumes per capita and 3.46 volumes per capita circulated. Approximately 10,038,827 reference questions were asked. This represents .78 questions per capita, and each item circulated an average of 2.06 times during the year.

Revenue for FY 88 totaled $149,572,898 and was received from four main sources: Local (municipal and/or county governments), 83%; State of Florida, 6%; Federal government, 2%; and other, 9%. This compares to percentages reported for spending in FY 1987: local, 89%; State of Florida, 6%; Federal, 2%; and other, 3%.

The libraries reported a total operating expenditure of $137,529,939 which equalled $10.69 per capita. In FY 87, the figure equalled $9.40 per capita, and in FY 86, $8.80 per capita.

Population projections were taken from Florida Estimates of Population, April 1, 1988, State, Counties, and Municipalities (prepared by the Population Program, Bureau of Economic and Business Research, University of Florida, February 1989). When the group that receives free library service did not correspond to county or city boundaries, we used figures provided by the library. These exceptions are noted in the footnotes in Table 1.

POPULATION SERVED

(Footnotes to Table 1, Column 4)

1. Orange County Library District is for Orange and Osceola counties minus Maitland and Winter Park.

2. Miami-Dade population was computed by subtracting from the 1988 Dade County figure the population figures for: Hialeah, North Miami, North Miami Beach, Surfside, Bal Harbour, Bay Harbour Islands, and Opa-Locka.

3. Surf-Bal-Bay serves the population of Surfside, Bal Harbour, and Bay Harbour Islands.
